

DIRECTORS REPORT

May 2015

Thomas D. Eggers, MLS System Director

I have spent much of the previous two months weeding collections in all five branches. The collections are full of old unused material. Many of the classics need replacing due to wear. The Grayson Friends of the Library were concerned about the amount being weeded so I'm not weeding that collection quite so thoroughly.

I have been discussing staff salaries with the library staff and the county board members of both counties. The salaries are quite low and I'm seeking to see them raised if possible.

I've also been looking into the computer maintenance problem. I've discussed it with both County Boards but no solution yet.
