2	The summer reading program keeps my children excited about reading in their "off" months to keep them where they need to be when they return to school! And they love the prizes! And, Signs/Flyers, Library Staff and Word of Mouth the school year, they love getting books here for participation in the A. R. Program at school. The librarian is always happy to help with any of needs. Whether it be looking up A. R. books, as helping me if I have a need for it on the computer! My children and I LOVE THIS LIBRARY!	1/9/2017 5:01 PM

123	What makes this a community? A group of houses clustered around a courthouse and a school? A couple of churches, a few stores, a fire house and rescue squad? A post office, bank, a doctor - the barest necessities? THAT DOESN'T make a community. That only happens when the people living there care enough to look out for each other and get together to celebrate achievements - graduations, weddings, festivals made up for any given reason - when people care enough to support each other through illness, accidents, deaths, departures for jobs, college, life. What is there here? Not enough means of support, not enough choices, not enough enrichment, not enough reason to stay in the area. Bring in tourists to exploit the river and the forests - and they'll quickly leave. They'll have seen it all overnight, and they'll go somewhere else. Community? Where are the barn raisers? The friends and strangers helping out in times of emergency? The dances - music on the courthouse lawn on Wednesdays. The same people go to Fries on Thursdays - but it's all about \$ [and prestige]. Come celebrate the change of seasons, fall festival - be sure to bring \$. Buy local. See people laugh. How could the library afford to reach out and touch more people? Have more programs? get more people involved? Get more exposure? How long until libraries vanish like video stores? Since our schools have ceased to EDUCATE our young, but have become government regulated day-care facilities, as one principal said "we train them to be here on time every day and to follow the rules so they can survive in the factories" - and then they send the factories overseas, refuse to pay caregivers decently, overcharge for health care, and deplete the earth for \$, our libraries are just as doomed.	11/8/2016 3:56 PM
