

January - February 2017

The Winter/Spring storytime season for the Grayson County, Fries and Whitetop Public Libraries began on February 7th, along with the annual winter reading program for Pre-K and early elementary students. The Library of Virginia provides materials for the program. I will have final stats (number of participants and books read) by the end of March.

Monthly, the GC youth department provides 13 outreach programs to schools, day care homes, and Head Start. Three of the visits are for the after-school programs at Fairview and Baywood Elementary schools.

February also started our renovation project at the Grayson County Public Library.

We are still busy at it. The carpet and paint looks great. Making a few changes in the youth area and getting rid of the unneeded accumulation of "stuff" has been going good. Looking forward to the end of the project!

Miss Becky
